

# Hey Rogue Rangers!

Can you tell the difference between wants and needs? Build a paper fortune teller to test your friends on how well they can tell the difference between wants and needs. Cut out your fortune teller along the dotted lines and follow the instructions on the back of this sheet to make your very own.

### How to play:

Ask a partner to pick a Rogue Ranger character. Count how many letters are in the Rogue Rangers name, and pinch and pull the fortune teller open and closed that number of times.  
 Ask your partner to choose one of the numbers on the inside of the fortune teller. Pinch and pull the fortune teller open and closed that number of times.  
 Finally, ask your partner to pick a picture and have them guess if it's a want or a need. Open the flap to reveal the answer!
